EDUCATION

Bachelor of Technology in Computer Science, GLA University, Mathura

2022 - 2026

INTERNSHIP/ TRAINING EXPERIENCE

Software Developer Intern, Edunext Technologies Pvt Ltd.

August 2025 – Feb 2026

- Implemented modular backend components in a Spring Boot microservices architecture, ensuring scalability for a network of more than **1,200** educational institutions.
- Designed and integrated core modules such as Student Dashboards, Employee Information Systems, Fees Management module and other huge modules, ensuring seamless data flow and high availability.
- Refined codebases for production through efficient MySQL logic and restructuring of REST APIs with Spring MVC for better maintainability, following industry standards
- Tech Stack:- Java, Spring, Spring boot, Microservices, JSP, React Js, JPA, Rest APIs, Amazon SQS, MySQL.

Job Oriented Value-Added Course, GLA University, Mathura

June 2024 – Jul 2024

Summer Trainee <https://attendance-management-system-k2gi.onrender.com/>

- Developed a working **Machine Learning** Model using **Linear Regression** for predicting number of placements for the future years in the university with the accuracy of **85%**.
- The Management System that streamlines attendance tracking using **QR code** scanning and **OTP** verification, ensuring accuracy and reliability. The system minimizes manual effort, reduces errors, and **optimizes** lecture time for better classroom efficiency.
- Tech Stack:- Python, Flask, Jinja, Scikit-learn, MySQL.

PROJECTS

- Swipe2Clean- A waste management and disposal website** [GitHub](#)
 - Engineered and implemented a robust waste management platform that integrated **waste recognition technology**, geolocation tracking, and task assignment features; improved operational efficiency and reduced **response time** to requests by **40%** within the first quarter.
 - Technologies and Tools used -Html, CSS, JavaScript, Node.js, EJS, MongoDB.
- Bakers Villa- A Ecommerce Platform** <https://baker-villa.vercel.app/>
 - Developed and deployed Bakers Villa, a **cloud-hosted** eCommerce platform for ordering cakes and bakery products. Integrated secure payments, real-time order tracking, and a user-friendly interface to enhance customer experience and streamline bakery operations.
 - Technologies and Tools Used- Html, CSS, JavaScript, Node.js, MongoDB, Vercel, RazorPay.

SKILLS

Technical

C, Python, Java, Spring, Spring Boot
HTML5, CSS3, JavaScript, EJS
Express, MySQL, Mongo DB
Linux, Git, GitHub

Professional

Effective Communication Skills
Team Work, Project management
Problem Solving
Collaboration

PROFESSIONAL ACHIEVEMENTS/ INSIGHTS

- Certified in Smart India Hackathon 2024 organized by GLA University on 30th and 31st August 2024.
- Solved more than **1000** questions on Leetcode and **250** questions on Codeforces, covering concepts of DSA.
- Cisco Certified:** Introduction to Cybersecurity, Networking Basics.

CO-CURRICULAR ACTIVITIES

- Guitarist with a passion for music; performed at college events and local gatherings.
- Engaged in badminton, which fosters physical fitness.
